

Dear Valued Customer:

Thermo Fisher Scientific's Mission is to enable our customers to make the world healthier, cleaner and safer, and the global coronavirus (COVID-19) outbreak is a powerful reminder of the importance of that Mission. We are profoundly aware of our obligations to ensure the safety of our colleagues, to continue to support our customers and to leverage our capabilities to address this rapidly evolving public health crisis.

Please be aware of the following related to your inquiry for purchase of our products:

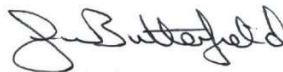

- The products are tested to meet the analytical requirements of the noted grade (USP, Ph. EUR or otherwise). Product test results are available on the Certificate of Analysis or upon request for the specific product.
- The products are for research use or further manufacturing. They are not for direct administration to humans or animals. It is the responsibility of the final formulator and end-user to qualify, test and/or validate each product for its intended use as an ingredient in the end product and in accordance with applicable regulations (including, without limitation, World Health Organization (WHO)-recommended Hand Rub Formulations (Hand Sanitizers) and/or FDA Policy for Preparation of Certain Alcohol-based Hand Sanitizer Products, as updated). Thermo Fisher Scientific expressly disclaims all non-specified warranties, expressed or implied, including the implied warranties of merchantability and fitness for a particular use.

As always, we greatly value our partnership with you and are committed to supporting your important work. If you have any questions about your current orders, or placement of new orders, please refer to your Thermo Fisher Commercial representative.

Thank you,

Kelly K. Miller
